

I am not sure if it is considered "local" broadcasting but I would like to place my objections to the Sinclair Group deciding not to air the Nightline episode to honor American Soldiers. I do not know which ABC stations this affects, hopefully not my own. It is not Sinclair Groups' responsibility to censor shows because of their own political views, especially to their customers. I would not like it if my gas company shut off my gas because they did not agree with my political views.
